

Our Aspiration

To be recognised as a leader in safety, environmental stewardship, and quality – demonstrating every day that responsible operations are the foundation of world-class performance and trust in the offshore energy industry.

Within the Oceanscan Group, HSSEQ is not just a priority, it's a core value that defines how we work.

We are committed to operating responsibly, sustainably and to the highest standards of Health, Safety, Security, Environment and Quality in everything that we do.

The Oceanscan Group endeavours to create a safe, sustainable, and high performing workplace supported by the following commitments:

Leadership and Culture

Demonstrating visible leadership and building a culture where everyone is empowered to act safely and responsibly.

Providing safe and healthy working conditions for the prevention of work-related injury and ill health.

Meeting the expectations of our stakeholders by delivering consistent quality through competent, motivated people.

Encouraging open participation, consultation, and collaboration with employees, stakeholders, and partners.

Setting clear HSSEQ objectives, monitoring performance, and driving continual improvement to the HSSEQ Management System and across all activities.

Empowering everyone to STOP work if they believe conditions are unsafe or standards are compromised, without fear or hesitation.

Recognising and rewarding proactive behaviours that protect people, the environment and quality of delivery.

Compliance and Integrity

Conducting our business in full compliance with all applicable laws, regulations, and standards wherever we operate.

Holding ourselves and our partners accountable for ethical, responsible, and transparent operations.

Operating with environmental responsibility – preventing pollution, using resources sustainably, and mitigating climate impacts.

Ensuring effectiveness through internal audits, verification, and constructive feedback.

Risk Management

Identifying, eliminating, or mitigating foreseeable hazards through proactive risk management.

Making risk awareness and prevention a shared responsibility at every level.

Providing relevant HSSEQ information, instruction, and training to enable excellence in every role.

Learning from incidents and non-conformities to prevent recurrence and strengthen our systems.
